IT IS RECOMMENDED THAT YOUR BOARD:

1. Approve the enclosed Engineer's Reports, either as filed or as modified, regarding annexation of territories in the 14 unincorporated areas, whose areas are noted in the petitions cited in Attachment A, to County Lighting Maintenance District 1687 and County Lighting District LLA-1, Unincorporated Zone, formation of Improvement Zones 530 and 533, and levy of assessments within the annexed territories for street lighting purposes.
2. Adopt the enclosed Resolution of Intention to Annex Territories to County Lighting Maintenance District 1687 and County Lighting District LLA-1, Unincorporated Zone, Form Improvement Zones 530 and 533, and Order the Levying of Assessments within the Annexed Territories, listed in Attachment A, for Fiscal Year 2005-06.

3. Set a date for a public hearing, regarding the proposed annexations, formations, and levy of annual assessments within the annexed territories for street lighting purposes, recommending a base assessment rate of \$5 for a single-family residence. Approve funding for the installation of concrete poles in Improvement Zones 530 and 533, in the amount of \$10,000 and \$6,000, respectively, from County Lighting Maintenance District 1687 and County Lighting District LLA-1, Unincorporated Zone. Also, levy a special annual assessment against benefited parcels within Improvement Zones 530 and 533, in the amount of \$48 and \$53 per parcel, respectively, over a 10-year period from Fiscal Year 2005-06 through Fiscal Year 2014-15, for the repayment of improvement costs.
4. Instruct the Executive Officer of the Board to cause notice of the public hearing by mail at least 45 days prior to the date of hearing scheduled for _____, pursuant to Section 53753 of the Government Code. The mailed notice will include assessment ballots.
5. Instruct the Executive Officer of the Board to cause notice of the public hearing to be posted in three conspicuous places within the territories to be annexed and to publish the notice of public hearing once a week for two consecutive weeks in a newspaper of general circulation. Such posting and publication to be completed at least 10 days prior to the date of hearing, pursuant to Section 5838 of the California Streets and Highways Code.

AFTER THE PUBLIC HEARING, IT IS RECOMMENDED THAT YOUR BOARD:

1. Order changes, if needed, in any of the matters provided in the Engineer's Reports, including changes in the improvements, the proposed diagrams, or the proposed assessments as described in the Engineer's Reports.
2. Order the tabulation of assessment ballots submitted, and not withdrawn, in support of or opposition to the proposed assessment.

3. Determine whether a majority protest against the proposed annexation, formation, or assessment exists.
4. Adopt the enclosed Resolution Ordering Annexation of Territories to County Lighting Maintenance District 1687 and County Lighting District LLA-1, Unincorporated Zone, Formation of Improvement Zones 530 and 533, Confirming a Diagram and Assessment, and Levying of Assessments within the Annexed Territories for Fiscal Year 2005-06, and the enclosed Joint Resolutions Approving and Accepting the Exchange of Property Tax Revenues resulting from annexation of territories to County Lighting Maintenance District 1687, either as proposed or as modified by your Board. If there is no majority protest against the proposed annexation, formation, or assessment, the adoption of the Resolution will constitute the levying of assessments in Fiscal Year 2005-06.
5. Find that the annexations, formations, and assessments are for the purpose of meeting operating expenses; purchasing supplies, equipment, or materials; meeting financial reserve needs and requirements; and obtaining funds for capital projects, including the installation, operation, and maintenance of street lights necessary to maintain service within the area proposed for annexation.
6. Authorize funding from County Lighting Maintenance District 1687 and County Lighting District LLA-1, Unincorporated Zone, to Improvement Zones 530 and 533, and instruct the Director of Public Works to pay for the installation of the concrete poles as specified below:

Improvement Zone 530 (Petition No. 136-1001):

Installation costs of concrete poles	\$10,000
Total funding	\$10,000

Improvement Zone 533 (Petition No. 33-203):

Installation costs of concrete poles	\$6,000
Total funding	\$6,000

The repayment of the improvement costs plus interest will be made through a special assessment levied on benefited parcels over a 10-year period from Fiscal Year 2005-06 through Fiscal Year 2014-15, in equal payments of approximately \$48 per parcel per year for Improvement Zone 530 and \$53 per parcel per year for Improvement Zone 533.

7. Instruct the Executive Officer of the Board to file copies of the Resolutions with the County Assessor, Ownership Services Section; and Auditor-Controller, Tax Section.
8. Make a finding terminating the annexation, formation and levy of assessments, and property tax transfer proceedings in those petition areas where the proposed annexation, formation, and levying of assessments have been rejected as a result of a majority protest.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

This recommended action is for your Board to annex 14 territories into County Lighting Maintenance District 1687 and County Lighting District LLA-1, Unincorporated Zone, to form Improvement Zones 530 and 533 for Petition Nos. 136-1001 and 33-203, respectively; to levy assessments for Fiscal Year 2005-06 on the benefited properties within the annexed territories for street lighting purposes; and to approve the exchange of property tax revenues among those nonexempt agencies whose service area is subject to the jurisdictional change.

Your Board previously approved and filed the various petitions listed in Appendix A, and adopted a Resolution Initiating Proceedings to annex territories to County Lighting Maintenance District 1687 and County Lighting District LLA-1, Unincorporated Zone, and to form Improvement Zones 530 and 533 for Petition Nos. 136-1001 and 33-203, respectively.

Implementation of Strategic Plan Goals

This action is consistent with the County Strategic Plan Goal of Fiscal Responsibility, as the annexation, formation, levy of assessment, and property tax transfer proceedings will provide the funding necessary for the operation of new street lighting facilities within these annexed territories.

FISCAL IMPACT/FINANCING

Sufficient funds will be included in the Fiscal Year 2005-06 budget for County Lighting District 1687 and County Lighting District LLA-1, Unincorporated Zone, to finance the installation of concrete poles and overhead wiring, and to fund the estimated annual operation and maintenance costs for all street lights proposed within the 14 petition areas, until assessments and ad valorem property taxes can be collected from the benefited properties within the petition areas.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

Authorization for funding from the County Lighting Maintenance District 1687 and County Lighting District LLA-1 to Improvement Zones 530 and 533 is necessary to pay up-front costs for the installation of street lights on concrete poles and overhead wiring, instead of wooden poles, pursuant to homeowners' request. The funding authorized for Improvement Zones 530 and 533 under this order will bear interest at the rate computed by the Auditor-Controller. This money will be repaid to County Lighting Maintenance District 1687 and County Lighting District LLA-1, Unincorporated Zone, from benefited parcels within Improvement Zones 530 and 533, as required by Sections 22657 and 22660 of the Streets and Highways Code, through annual assessments. These assessments are estimated to be \$48 per year per parcel for Improvement Zone 530 and \$53 per year per parcel for Improvement Zone 533, over a 10-year period from Fiscal Year 2005-06 through Fiscal Year 2014-15.

The enclosed Resolution of Intention must be adopted to set a date for the required public hearing. Your Board, at the close of the public hearing, may delay its determination regarding the annexation, formation and/or levying of assessment until a later date, continue the public hearing to receive further testimony, or make a determination regarding the annexation, formation, and/or assessment.

Under Proposition 218 (California State Constitution, Articles XIII C and XIII D), it is necessary to follow the procedures for levying of assessments previously authorized by your Board, including the sending, receipt, and tabulation of ballots. The assessment will only be levied if the weighted majority of ballots returned are in favor of the assessment. The required public hearing shall be scheduled for Tuesday,

Affected agencies must approve and accept the exchange of property tax revenues pursuant to Section 99.01 of the Revenues and Taxation Code by resolution. For those agencies under the Board's jurisdiction, the Board can act on their behalf. For those agencies with their own governing boards who fail to adopt a resolution providing for the exchange of property tax revenues, your Board can approve the exchange of property tax revenue for that agency. The Resolutions Approving and Accepting the Exchange of Property Tax Revenues have been approved by nonexempt taxing agencies and are enclosed for your consideration.

The boundaries of the proposed annexations have been reviewed and approved by Public Works and the County Assessor in accordance with the requirements of Section 58850 et seq. of the Government Code. Copies of diagrams showing the boundaries of each proposed annexation territories are included with the Resolution of Intention.

Following your Board's approval of the annexation, formation, levy of assessment, and exchange of property tax revenues, Public Works will file with the State Board of Equalization the statement of boundary changes as required by Section 54900 et seq. of the Government Code. The State Board of Equalization will approve the transfer of property tax revenue beginning in Fiscal Year 2005-06.

The enclosed Resolutions have been approved as to form by County Counsel.

**COUNTY OF LOS ANGELES
DEPARTMENT OF PUBLIC WORKS
ENGINEER'S REPORT
PETITION NO. 139-902**

On September 30, 2003, the Board of Supervisors of the County of Los Angeles adopted a Resolution Initiating Proceedings for annexation of territory to County Lighting District LLA-1, Unincorporated Zone, pursuant to the Landscaping and Lighting Act of 1972 of the Streets and Highways Code of the State of California for the purpose of providing for the cost of installing, operating, and maintaining ten street lights on wood poles with overhead wiring within the annexed territory. In addition, Public Works was ordered to prepare and file an Engineer's Report in accordance with Section 22565 et seq. of the Streets and Highways Code. This report was prepared in response to that directive.

With the passage of Proposition 218 (the Right to Vote on Taxes Act) by the California voters in November 1996, the levy of an assessment is now subject to certain provisions under Article XIID of the California Constitution. This report conforms with the applicable provisions of Proposition 218.

County Lighting Maintenance District 1687 is an established street lighting district and was fully funded from ad valorem property taxes prior to the passage of State Constitutional Amendment XIII-A, which limited the maximum amount of ad valorem tax on real property. The ad valorem property taxes received under the guidelines established by the State Legislature subsequent to the passage of this amendment are not sufficient to pay the cost of the street lighting in the district. Therefore, County Lighting District LLA-1 was formed under the Landscaping and Lighting Act of 1972 to provide supplemental funding.

The Landscaping and Lighting Act provides for the assessment of street lighting costs against the benefited property within the lighting district in proportion to the benefits received. A method of distributing the street lighting costs on the basis of land use and utilizing land-use data compiled by the County Assessor was approved by the Board of Supervisors on May 22, 1979, and amended on July 22, 1997, to include government-owned or leased parcels. A report showing the approved method and the assessment units to be assessed on the various types of lots and parcels is on file in the office of the Board of Supervisors and is made a part hereof by reference.

All of the parcels of real property affected are shown in Appendix A. These parcels are more particularly described in maps prepared in accordance with Section 327 of the Revenue and Taxation Code, which are on file in the office of the County Assessor and are made a part hereof by reference and in the attached diagram.

In accordance with Proposition 218 provisions, parcels within a lighting district that are owned or used by any governmental agency are now subject to street lighting assessments in districts where a new assessment is proposed.

The cost of operating and maintaining these lights can be financed by means of a special assessment, which can be applied to the benefited property owners.

We believe that it would be in the public interest to install street lights in the designated area, as requested by the signers of Petition No. 139-902, and to provide for their operation and maintenance.

ENGINEER'S REPORT
PETITION NO. 136-1001
IMPROVEMENT ZONE 530**

On April 15, 2003, the Board of Supervisors of the County of Los Angeles adopted a Resolution Initiating Proceedings for annexation of territory to County Lighting District LLA-1, Unincorporated Zone, and formation of Improvement Zone 530, pursuant to the Landscaping and Lighting Act of 1972 of the Streets and Highways Code of the State of California for the purpose of providing for the cost of installing, operating, and maintaining ten street lights on concrete poles with overhead wiring within the annexed territory. In addition, Public Works was ordered to prepare and file an Engineer's Report in accordance with Section 22565 et seq. of the Streets and Highways Code. This report was prepared in response to that directive.

Upon the formation of Improvement Zone 530, a loan of \$10,000 can be advanced from County Lighting Maintenance District 1687 and County Lighting District LLA-1, Unincorporated Zone, to provide for the installation cost of the ten concrete poles with overhead wiring. The loan would be repaid by the 25 benefited parcels within Improvement Zone 530, over a 10-year period, from Fiscal Year 2005-06 through Fiscal Year 2014-15, in equal payments including interest of \$48 per parcel per year, pursuant to Section 22660 of the Streets and Highways Code. Improvement Zone 530 will automatically terminate provided there are no outstanding obligations payable from special assessments to be levied in said Zone. The Assessor Parcel Numbers of the 25 benefited parcels within Improvement Zone 530 are shown in Appendix A.

With the passage of Proposition 218 (the Right to Vote on Taxes Act) by the California voters in November 1996, the levy of an assessment is now subject to certain provisions under Article XIID of the California Constitution. This report conforms with the applicable provisions of Proposition 218.

This report was prepared in response to that directive.

With the passage of Proposition 218 (the Right to Vote on Taxes Act) by the California voters in November 1996, the levy of an assessment is now subject to certain provisions under Article XIII D of the California Constitution. This report conforms with the applicable provisions of Proposition 218.

County Lighting Maintenance District 1687 is an established street lighting district and was fully funded from ad valorem property taxes prior to the passage of State Constitutional Amendment XIII-A, which limited the maximum amount of ad valorem tax on real property. The ad valorem property taxes received under the guidelines established by the State Legislature subsequent to the passage of this amendment are not sufficient to pay the cost of the street lighting in the district. Therefore, County Lighting District LLA-1 was formed under the Landscaping and Lighting Act of 1972 to provide supplemental funding.

The Landscaping and Lighting Act provides for the assessment of street lighting costs against the benefited property within the lighting district in proportion to the benefits received. A method of distributing the street lighting costs on the basis of land use and utilizing land-use data compiled by the County Assessor was approved by the Board of Supervisors on May 22, 1979, and amended on July 22, 1997, to include government-owned or leased parcels. A report showing the approved method and the assessment units to be assessed on the various types of lots and parcels is on file in the office of the Board of Supervisors and is made a part hereof by reference.

All of the parcels of real property affected are shown in Appendix A. These parcels are more particularly described in maps prepared in accordance with Section 327 of the Revenue and Taxation Code, which are on file in the office of the County Assessor and are made a part hereof by reference and in the attached diagram.

In accordance with Proposition 218 provisions, parcels within a lighting district that are owned or used by any governmental agency are now subject to street lighting assessments in districts where a new assessment is proposed.

The cost of operating and maintaining these lights can be financed by means of a special assessment, which can be applied to the benefited property owners.

We believe that it would be in the public interest to install street lights in the designated area, as requested by the signers of Petition No. 86-602, and to provide for their operation and maintenance.

On June 10, 2003, the Board of Supervisors of the County of Los Angeles adopted a Resolution Initiating Proceedings for annexation of territory to County Lighting District LLA-1, Unincorporated Zone, pursuant to the Landscaping and Lighting Act of 1972 of the Streets and Highways Code of the State of California for the purpose of providing for the cost of installing, operating, and maintaining four street lights on wood poles with overhead wiring within the annexed territory. PETITION NO. 33-203
IMPROVEMENT ZONE 533**

On November 4, 2003, the Board of Supervisors of the County of Los Angeles adopted a Resolution Initiating Proceedings for annexation of territory to County Lighting District LLA-1, Unincorporated Zone, and formation of Improvement Zone 533, pursuant to the Landscaping and Lighting Act of 1972 of the Streets and Highways Code of the State of California for the purpose of providing for the cost of installing, operating, and maintaining three street lights on concrete poles with overhead wiring and two street lights on wood poles with overhead wiring within the annexed territory. In addition, Public Works was ordered to prepare and file an Engineer's Report in accordance with Section 22565 et seq. of the Streets and Highways Code. This report was prepared in response to that directive.

Upon the formation of Improvement Zone 533, a loan of \$6,000 can be advanced from County Lighting Maintenance District 1687 and County Lighting District LLA-1, Unincorporated Zone, to provide for the total installation cost of the three concrete poles with overhead wiring. The loan would be repaid by the 14 benefited parcels within Improvement Zone 533, over a ten-year period, from Fiscal Year 2005-06 through Fiscal Year 2014-15, in equal payments including interest of \$53 per parcel per year, pursuant to Section 22660 of the Streets and Highways Code. Improvement Zone 533 will automatically terminate provided there are no outstanding obligations payable from special assessments to be levied in said Zone. The Assessor Parcel Numbers of the 14 benefited parcels within Improvement Zone 533 are shown in Appendix A.

With the passage of Proposition 218 (the Right to Vote on Taxes Act) by the California voters in November 1996, the levy of an assessment is now subject to certain provisions under Article XIID of the California Constitution. This report conforms to the applicable provisions of Proposition 218.

County Lighting Maintenance District 1687 is an established street lighting district and was fully funded from ad valorem property taxes prior to the passage of State Constitutional Amendment XIII-A, which limited the maximum amount of ad valorem tax on real property. The ad valorem property taxes received under the guidelines established by the State Legislature subsequent to the passage of this amendment are not sufficient to pay the cost of the street lighting in the district. Therefore, County Lighting District LLA-1 was formed under the Landscaping and Lighting Act of 1972 to provide supplemental funding.

The Landscaping and Lighting Act provides for the assessment of street lighting costs against the benefited property within the lighting district in proportion to the benefits received. A method of distributing the street lighting costs on the basis of land use and utilizing land-use data compiled by the County Assessor was approved by the Board of Supervisors on May 22, 1979, and amended on July 22, 1997, to include government-owned or leased parcels. A report showing the approved method and the assessment units to be assessed on the various types of lots and parcels is on file in the office of the Board of Supervisors and is made a part hereof by reference.

All of the parcels of real property affected are shown in Appendix A. These parcels are more particularly described in maps prepared in accordance with Section 327 of the Revenue and Taxation Code, which are on file in the office of the County Assessor and are made a part hereof by reference and in the attached diagram.

In accordance with Proposition 218 provisions, parcels within a lighting district that are owned or used by any governmental agency are now subject to street lighting assessments in districts where a new assessment is proposed.

The cost of operating and maintaining these lights can be financed by means of a special assessment, which can be applied to the benefited property owners.

We believe that it would be in the public interest to form Improvement Zone 533 and to install street lights in the designated area, as requested by the signers of Petition No. 33-203, and to provide for their operation and maintenance.

VARIOUS PETITIONS**

WHEREAS, the Board of Supervisors of the County of Los Angeles previously approved and filed the various petitions listed in Attachment A, requesting annexation of territories to County Lighting Maintenance District 1687 and County Lighting District LLA-1, Unincorporated Zone, and formation of Improvement Zones 530 and 533, to provide for the installation, operation, and maintenance of street lighting systems in County Lighting Maintenance District 1687 and County Lighting District LLA-1, Unincorporated Zone; and

WHEREAS, the Board of Supervisors on _____, has approved the Engineer's Reports for said territories, which contains a description of the improvements, estimated operating costs, diagrams of the territories to be annexed, and recommended assessments as required by law.

NOW, THEREFORE, BE IT RESOLVED, by the Board of Supervisors of the County of Los Angeles, State of California, that:

SECTION 1. The public interest and convenience require, and it is the intention of the Board of Supervisors to order, the benefited territories hereinafter described, all of which territories lie in the County of Los Angeles, be annexed to County Lighting Maintenance District 1687 pursuant to Section 5837 et seq. of the Streets and Highways Code of the State of California.

SECTION 2. The public interest and convenience require, and it is the intention of the Board of Supervisors to order, said benefited territories be annexed to County Lighting District LLA-1, Unincorporated Zone, pursuant to Section 22605 et seq. of the Streets and Highways Code of the State of California.

SECTION 3. The public interest and convenience require, and that it is the intention of the Board of Supervisors to order, the formation of Improvement Zones 530 and 533 for Petitions 136-1001 and 33-203, respectively, in County Lighting Maintenance District 1687 and County Lighting District LLA-1, Unincorporated Zone, pursuant to Section 22574 of the Streets and Highways Code.

SECTION 4. That the public interest and convenience require, and it is the intention of the Board of Supervisors to order, the expense necessary for the operation, maintenance, repairs, replacement, electric current, care, supervision, and all other items necessary for proper operation and maintenance of street lighting systems consisting of street lights on new or existing wood poles on overhead wiring, or new concrete poles with overhead wiring, shall be assessed in Fiscal Year 2005-06 upon each lot or parcel of land lying within the annexed territories in proportion to the estimated benefits received from the proposed street lighting improvements, and which should be assessed to pay the expenses of the operation and maintenance of said improvements. The Engineer's Report, approved annually by your Board, establishes the annual assessment rate for all zones within County Lighting District LLA-1. For Fiscal Year 2004-05, the annual assessment rate for the Unincorporated Zone is \$5 for a single-family residence. This annual assessment for the operation and maintenance of street lights is added to the property tax bill of benefited parcels within the boundaries of County Lighting District LLA-1. Each year thereafter, an assessment for operation and maintenance costs, approved by your Board, will be added to the property tax bill

For Petitions 136-1001 and 33-203, the installation of new concrete poles with overhead wiring shall be financed through the formation of Improvement Zones 530 and 533, respectively. The loan and appropriation are necessary to provide up-front funding for the installation costs of these street lights. The money will be repaid to County Lighting Maintenance District 1687 and County Lighting District LLA-1, Unincorporated Zone, through an annual assessment estimated to be \$48 per parcel per year, collected from property owners of the 25 benefited parcels within Improvement Zone 530 over a 10-year period, from Fiscal Year 2005-06 through Fiscal Year 2014-15; and \$53 per parcel per year, collected from property owners of the 14 benefited parcels within Improvement Zone 533 over a 10-year period, from Fiscal Year 2005-06 through Fiscal Year 2014-15, pursuant to Sections 22657 and 22660 of the Streets and Highways Code. The annual operation and maintenance assessment rate of \$5 for a single family residence will also be added to the Fiscal Year 2005-06 assessments.

The Engineer's Reports, on file with the Executive Officer of the Board, contains a full and detailed description of the improvements; the boundaries of the territories proposed to be annexed; the estimated costs of installation, operation, and maintenance; a diagram for the territories to be annexed; and the proposed assessments on each lot or parcel of land included therein.

SECTION 5. That the boundary of the territories proposed to be so annexed consists of the areas shown on the attached maps.
